

Mission Architecture is very popular.

by Rosemarie McCabe

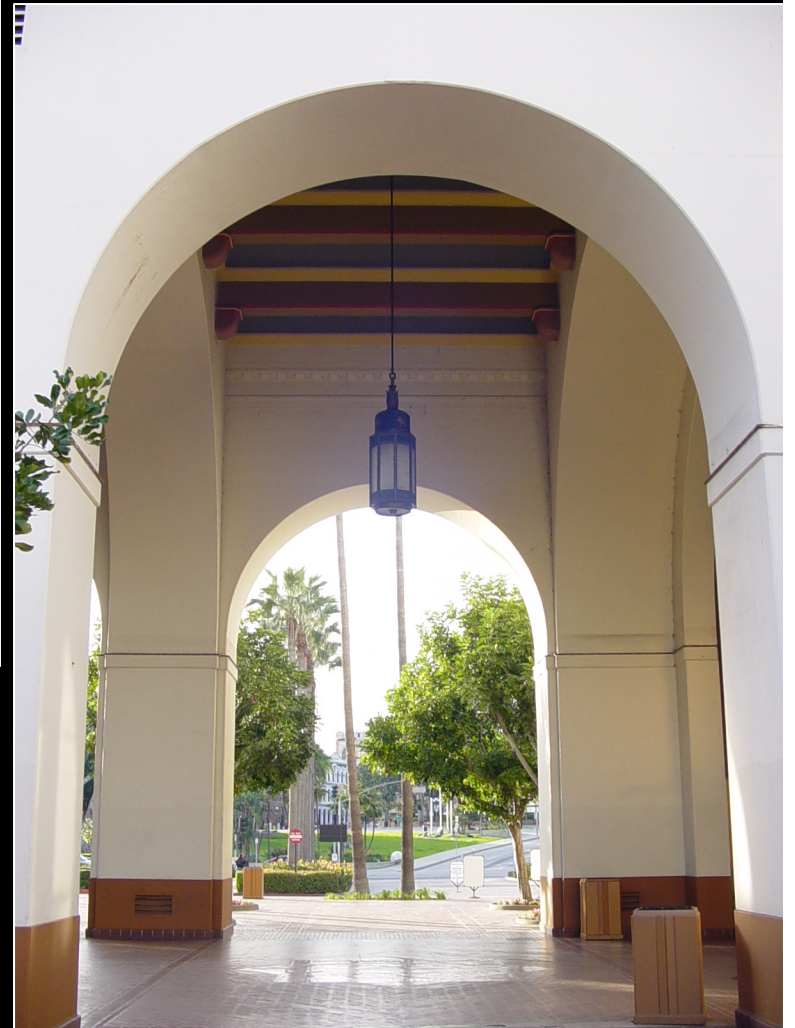

Look around your own neighborhood...

You might see the familiar red tiled roofs...

...or mission-style arches.

You might see the white-wash exterior that looks like adobe...

...or other mission-style features.

There are train stations...

Hotels...

Schools...

Restaurants...

Shopping Centers...

Apartment buildings...

and more.

So keep your eyes open...

You'll see
that
California
Mission
Architecture
is truly all
around us!
